Summary

I am a Senior Software Engineer with over 10 years of experience in web development. I specialize in using cutting-edge technologies such as NodeJS, React, Vue, and TypeScript to create modern, responsive interfaces. I am passionate about continuous learning and delivering efficient, sustainable solutions that make a tangible impact. My family is my greatest inspiration outside of work, driving me to push my boundaries and strive for excellence in everything I do. I seek new opportunities to leverage my expertise and enthusiasm in innovative and challenging projects.

TECHNICAL SKILL

- **Languages and Technologies:** React.js, Vue.js, NodeJS, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, AngularJS, Express, Styled-components, Storybook, Nx.
- **Tools and Methodologies:** Npm, Git, CI/CD, Automated Testing.
- **Cloud Platforms:** AWS (Architecting on AWS).

PROFESSIONAL EXPERIENCES

Skopia (EclipseWorks/NScreen)

Especialista Fullstack Engineer | AWS Architect

December 2024 - present

- I am part of a consultancy, allocated to the client Aviva Incasa Residencial Clube, where I propose ideas and create solutions to improve the reservation website for the company's residential club.
- Maintenance and support on front and back projects related to the Client.

Calindra

Senior Frontend Engineer

July 2024 - November 2024

- As part of Calindra, a consultancy firm, I am allocated to a client (Tania Bulhões), where I propose ideas and create solutions to improve their e-commerce website.
- I collaborate with clients to understand their needs, delivering impactful technical solutions to enhance user experience and streamline site performance.
- My role involves identifying pain points, optimizing site functionalities, and ensuring the implementation of best practices for a seamless shopping experience.

Desygner

Senior Frontend Engineer

December 2023 - May 2024 (6 months)

- Developed modern, responsive interfaces using React, Vue, Node.js, TypeScript, Styled-components, Storybook, and Nx.
- Continuously reviewed and improved code, and developed reusable components.
- Collaborated with designers and product managers to transform concepts into functional solutions.
- Implemented automated tests to ensure high code quality.

Stone

Staff Software Engineer

July 2023 - December 2023 (6 months)

- Developed responsive and modern interfaces using Vue.js, Next.js, React, and Tailwind CSS.

Mosaico

Specialist Fullstack

January 2023 - June 2023 (6 months)
